Ends Won't Meet

Municipalities Ask Ottawa For More Aid

OTTAWA (CP) — The Canadian Federation of Mayors and Municipalities yesterday asked for more federal money to help municipalities pay for major capital works, particularly slum-clearance, community improvement, and urban growth projects.

It urged the government to convene a federal-provincial-municipal conference, and to work towards putting Canadian municipalities on a level of financial equality.

In a brief presented to Prime Minister Diefenbaker and his cabinet, the federation said municipalities in general can pay their own expenses of operation and general services. They couldn't provide the money for the often-vital projects that called for large, immediate spending.

Municipalities were levying all the taxes they legally could, tax rates were higher than ever, and still there wasn't enough money for expansion, for highways, for hospitals and schools.

Borrowing the needed money was difficult because interest rates were high, and most municipalities already had borrowed as much as financial circles considered safe—up to 20 per cent of the value of taxable assets. In any case, heavy selling of federal bonds, and industrial bonds, had almost driven municipal bonds off the Canadian market.

Some municipalities were unable even to sell their bonds in the United States.

The brief said average taxpayers in average communities already were burdened with costs of a high standard of living and with credit commitments.

Riot Charges Debated At Hearing

GRAND FALLS, Nfld. (UPI) — Preliminary hearings into rioting charges against eight loggers opened here Thursday before Magistrate A. E. Cramm.

The inquiry, expected to conclude today, is being held behind closed doors.

Rioting charges stemmed from a clash between police and picketing members of the International Woodworkers of America at Badger March 10. Newfoundland constable William Moss died of injuries received in the battle.

The hearing will determine whether there is sufficient evidence to commit the eight loggers for trial.

Glass Business Planned in B.C.

KAMLOOPS (CP)—A glass manufacturing plant is planned this year by Western Silica Glass Product Ltd.

It is expected to employ 200 persons and will use silica products mined from 24 claims in the Kamloops area.

Although about the size of a chicken, the Australian kiwi lays one-pound eggs, about eight times heavier than the average hen's.
